Describe the facilities in the Institution for the management of the following types of degradable and non-degradable waste

Solid waste management for collecting the solid waste from nook and corner of the campus substantial number of dustbins are installed.

Most of the waste collected is biodegradable. The non-degradable waste is given to the Municipal Corporation. The solid biodegradable waste collected from the parks, play field after use of lawn mower and bush cutter is collected and dumped for decomposition to be used as a source of bio fertilizer. During the autumn season a large quantity of fallen dry leaves, Grass are collected and dumped to decompose for manure.

Sewage from bathrooms and toilets is connected to the municipal drainage system. It doesn't leak anywhere. Liquid waste All the liquid waste from washroom, bathroom is collected into soakage pits through systematic drainage. Zero percent leakage of waste water is ensured.

E- Waste Management The college has minimum e-waste. The waste if any is sold to vendors for recycling.

The answer sheets of the examination department are kept for five years. After five years, they are sold in the trash. Old newspapers in the library, professors and teachers cut out the part you need. Good educationally important text is put in the showcase. The remaining old newspapers are sold after two years.

Old electric tubes, old bulbs, old electric items are sold to scrap dealers.

Students of NSS are asked to assemble the remaining pages from the student's book and sew their books. It is used by students in slums or college students. Student projects are kept for two years. Its good file covers are given to poor students. All the remaining material is sold in the trash. This is how recycling is done.
