7.2.1: Two institutional best practices1.

1. Title of the Practice: ENVIRONMENT CONSCIOUSNESS

2. Objectives of the Practice:

- Dissemination of environmental literacy to motivate students, teachers and supporting staff
- Transformation of the campus into pollution free and environmentally friendly zone.
- Efficient use of available water.
- Proper waste management.
- To tell environment degradation.
- Planting and maintaining trees.
- To accept clean production concept.
- To banned Plastic & make environment ecofriendly.

3. The Context:

S.M.D.L. College Kalamoboli always had sustainable initiatives at the core of all activities, despite the relatively small campus 650 students, 30 + faculty at various levels. S.M.D.L College campus has significant greenery covering all parts of the campus, something that is appreciated by all visitors on campus. As College is located semi urban shadow region. It was necessary to look forward to make efficient use of available water and other resources. A clean and healthy environment aids effective learning and provides a conducive learning environment. We decided to educate and make aware students on the issues such as renewable energy sources, waste management and recycling. We decided to work in the areas of power, plant, water and cleanliness. The stakeholders work to develop an eco-friendly, sustainable campus and to disseminate the concept of eco-friendly culture.

6. Problems Encountered and Resources Required

Being a Govt. institute, the college has no administrative and financial rights to set up such a system which demands huge financial resources.

The financial resources are always needed to secure success in organizing these programs. The coordination from external agencies is required to put theory in practice. The programme with external agencies should be organized to let people of the area understand the importance of environment cleanliness and up gradation.

Maintaining the motivation level in voluntary work and ensuring the wholehearted involvement of volunteers in all the activities was also a problem which requires careful teacher supervision.

Shikshan Maharashi Dadasaheb Limaye College is a premier institution in our district which takes a holistic view of the education of poor students in this region. The institution believes in physical and mental development of the students in all respects. As it is rightly said, "A healthy mind in a healthy body", the efforts are made to strengthen the latent force inherent in them by conducting regular Yoga classes. It not only relieves them from their mental burden but also make them physically active and supportive. It also makes the harmonious development of body, mind and the soul. It is hoped that the students would be able to cope up with the challenges of the modern world once they are properly trained to control their body and mind.

1. Objectives of the Practice

- Physical Fitness for all students
- Improve physical, mental and social health
- Organization of different fitness program related to Yogic Science.
- Special trainings for especially abled players.
- To build positive attitude and pure thoughts in human beings
- To develop the concentration level of students
- To improve students' academic performance by raising their level of energy, focus and concentration

2. The Context

Modern world is running after consumerist culture. The course syllabus, in general, is also oriented towards marketability of knowledge. The rat race in various competitive examinations makes the aspirants suffocated. The current system of education is very much geared towards the market. This very often produces students who are technically sound but dull otherwise. They very often do not learn the social values which are essential for the development of the country. A mechanistic view on education is neither helpful for the child nor is it for the society. Moreover, the job related stress in the private/public sector also makes people withdrawn from the main currents of family, friends and others. Yoga is imparted to the students to make them feel self-confident and responsive to challenges

against all odds. It makes them calm, composed and steadfast in the event of terrible physical and mental turmoil. It increases the power of concentration so essential information of their knowledge at an earlier stage. It helps them relieving tension from their minds and make them capable of facing the world with fortitude.

3. The Practice

The yoga classes are conducted in the early morning inside the college campus. Students are educated on the healthy practice of Yoga its importance in daily life and are advised to attend the class regularly. An attendance register is maintained to keep track of their presence. The training is imparted to them by a trainer initially. After grasping the essentials of yoga techniques, master trainers are chosen from the students. All teaching and non-teaching staff also participate under the supervision of the Yoga classes. One period of 45 to one hour is allotted for the class.

4. Evidence of Success

Yoga classes prove to be beneficial for the students. The mass participation by them reveals their interest in this exercise. The response is very encouraging. This is reflected in the change of their behavior in every situation they face in the campus. It has made them more disciplined and dedicated to the goals that they form in their lives. Many students experience an internal calmness in their mind and feel that they are now more confident in taking up the challenges for the future. Besides that, the morning exercise also makes them physically fit and active throughout the day. This is also appreciated by the guardians who send their girls to the college.

5. Problems Encountered and Resources Required

Though a noble initiative, we are in shortage of adequate funds to expand the scale of operation. Besides the remuneration of a trained teacher also requires resources which is very difficult to be met sometimes. So the practice is to select the master trainers to train others with little incentives. Due to the tremendous will power and dedication of all the stakeholders, the classes are running successfully despite resource constraints

6. Notes (Optional)

The Institution proposes to start value education as a part of the best practice for the spiritual development of the students we have plan to hold regular lecturers, conduct seminars and symposiums on value education and to organized student activities which would stress on the importance of ethics in students life.
